

TrustAfrica will be launching several research reports covering pertinent themes to combating illicit financial flows from Africa, including the following topics:

- *Illicit Financial Flows and the Regulatory Framework for Mineral Exploitation Arrangements in Cameroon*
- *The Legal Framework of Financial Regulation in Ethiopia: Identifying the Legal Lacuna that Aggravates Illicit Financial Out Flows*
- *Investigating Illicit Financial Flows in Zimbabwe's Lithium Mining Sector: Local enterprises participation in extractive industry value chains, beneficiation and IFFs*
- *Thin Capitalization and Illicit Financial Flows from Africa – A Case of Zambia's Mining Sector*
- *Africa's Development Hemorrhage and the Shadow of Illicit flows in Resource Rich Country: Interrogating the Nigerian oil Sector Corridor*
- *Institutional Capacity and Illicit Financial Flows in Lesotho*
- *Proactive Procurement and Monitoring and Evaluation: Principal Mechanisms for Addressing IFFs in Liberia's Extractive and Renewable Industries*

Publications will be available in book format at the launch. Please find attached brief backgrounds of the publications, which are also found online on the link referred to.
